Train For A Career In

Dental Assisting

DIPLOMA PROGRAM

We all dream of **success**.
Our goal is to help you achieve it.

Meet American Career College

With over 40 years of experience in healthcare training and more than 50,000 alumni in California, ACC is here to help you make your goals a reality.

Our classes are modeled after real-life scenarios, using the same medical tools and equipment you'll use on the job. That way, you're prepared to jump in on your very first day. We provide education focused on real-world skills and knowledge, giving our students the opportunity to change their lives for the better.

What is a Dental Assistant?

Dental assistants are critical members of the dental office team. Dentists rely on assistants to perform a wide range of tasks, including obtaining dental records, sterilizing instruments, preparing patients for treatment, and handing materials to the dentist.¹

Dental assistants are often among the first people in the office or clinic to interact with a patient and play an essential role in ensuring patients are comfortable during their visit.¹

Program Overview

ACC's Dental Assisting program helps prepare you to become a registered dental assistant, including covering topics for relevant certifications such as the Coronal Polishing Certification and Pit and Fissure Certification.

Dental Assisting Skillset

Patient Care

Process X-Rays

Manage Equipment

Coronal Polishing

Crown/Molding

Dental Assisting Program

The Dental Assisting program is divided into eight learning units called modules. You may begin with any module without the prerequisite of another module. In the classroom and lab setting, you will get hands-on training using equipment comparable to that used in real dental facilities. Once you have completed all eight modules, you'll gain real-life experience through a 180-hour externship.

DA100 Clock Hours 80 | Quarter Credits 6 **Fundamentals of Dental Assisting***

This module is designed to introduce the student to the dental health team; ethics, jurisprudence, and expected levels of professionalism will also be addressed. The anatomy and physiology of the head and neck as it relates to the practice of dentistry is included. Use and care of dental equipment and the operator are emphasized. This module will also introduce the student to chart dental caries and restorations on both geometrical and anatomical charts. Infection control will be reviewed and practiced.

DA200 Clock Hours 80 | Quarter Credits 6 **Science of Dentistry***

This module is designed to introduce the student to the basic concepts and principles of microbiology as it pertains to dentistry. Special emphasis will be placed on the proper methods and ramifications of infection control issues including OSHA regulations and the disease transmission process. Periodontics theory and practice will be addressed. Infection control will be reviewed and practiced.

DA300 Clock Hours 80 | Quarter Credits 6 **Restorative Dentistry/Pharmacology***

This module is designed to introduce the student to various materials and instrumentation. The student will be exposed to the use and care of the Caries Detection Device. Pharmacology and drugs as they relate to dentistry will also be discussed. Infection control will be reviewed and practiced.

DA400 Clock Hours 80 | Quarter Credits 6 **Laboratory Procedures/Prosthodontics***

This module will address cultural differences and issues of diversity in the workplace. Students will study concepts related to cultural values and language diversity, as well as analyze programs and procedures for meeting the needs of diverse populations. Students will leave this module with an understanding of the various facets of multiculturalism, diversity issues, and various methods of preparing healthcare personnel to address diversity issues. The student will be exposed to, and practice with, a variety of impression materials as well as producing primary impressions. Theory and practice of permanent and removable prosthodontics will also be presented. Infection control will be reviewed and practiced.

DA500 Clock Hours 80 | Quarter Credits 6 **Pediatric Dentistry/Orthodontics***

This module emphasizes both the preventive and restorative techniques in pediatric/operative dentistry. Theory and practice in orthodontics will be introduced. Infection control will be reviewed and practiced.

DA600 Clock Hours 80 | Quarter Credits 6 **CPR/Preventive Dentistry***

This module is designed to give the student exposure to the principles and practices of preventing and controlling dental disease with emphasis on nutrition and plaque control. The student will receive basic training in standard first aid and in recognizing and dealing with medical emergencies. Exposure to sealant materials in the field of preventive dentistry will also be discussed. Infection control will be reviewed and practiced.

DA700 Clock Hours 80 | Quarter Credits 6 **Endodontics/Radiography***

Basic principles of dental radiology including theory and techniques will be presented. Emphasis will be placed on operation of the x-ray equipment, safety practices, mounting, and evaluation of dental films. Basic principles of head and neck anatomy, as well as radiographic anatomical landmarks, will be covered. Once the student has fulfilled the necessary program requirements, she/he will receive a state certificate to perform x-rays in the dental office. The specialty of Endodontics will be explored. Infection control will be reviewed and practiced.

DA800 Clock Hours 80 | Quarter Credits 6 **Oral Surgery/Anesthetics***

This module is designed to introduce the student to surgical procedures performed in dentistry. The student will also be exposed to the various methods and techniques of anesthesia. Infection control will be reviewed and practiced.

EXT-DA Clock Hours 180 | Quarter Credits 7 **Externship**

The externship courses give students the opportunity to demonstrate and reinforce the knowledge and skills presented and practiced throughout the training program. Prior to students going on an extern site, they must complete 20 hours of work site professionalism curriculum. This content builds upon the students ability to work well with others, finalize their resume, improve interviewing skills, and manage their time on their externship site. Externs work under the direct supervision of qualified personnel at the externship site and under general supervision of the College staff. Externs are evaluated by supervisory personnel and the evaluations are placed in the student's permanent record. Dental students must complete their externship training to fulfill program requirements.

PROGRAM TOTAL: 820 Clock Hours
55 Quarter Credits

*Courses delivered in a blended format, a combination of online and ground.

“ I went from being a receptionist to working full-time as a dental assistant, and it’s all because of American Career College. ”

Accreditation

ACC is institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES). ABHES: 6116 Executive Blvd., Suite 730, North Bethesda, MD 20852, (301) 291-7550 / www.abhes.org.

The Dental Assisting programs in Los Angeles, Orange County, and Ontario are approved by the Dental Board of California. Dental Board of California: 2005 Evergreen Street, Suite 1550 Sacramento, CA 95815 / Phone (916) 263-2300 / Fax (916) 263-2140 / www.dbc.ca.gov

Campus Locations	Orange County	Ontario	Los Angeles
Accrediting Bureau of Health Education Schools (ABHES)			
Retention Rates: Based on the calculation required by ACC's accrediting body, ABHES. ABHES defines retention rate as the number of graduates plus students who were still enrolled as of June 30, 2021, divided by the number of students who were in school from July 1, 2019 to June 30, 2020 and were still enrolled as of July 1, 2020 plus new starts during the reporting period and students who reentered between July 1, 2020 and June 30, 2021.	91%	79%	80%
Placement Rates: Based on the calculation required by ACC's accrediting body, ABHES. ABHES defines placement rates as the number of graduates who are working in their field of training divided by the total number of graduates during the reporting period (July 1, 2020–June 30, 2021) minus the number of graduates who were unavailable for employment.	97%	84%	94%
California Bureau for Private Postsecondary Education (BPPE)			
On-time Completion Rates: The number of students who completed the program within 100% of the published program length who were scheduled to graduate in 2020 divided by the number of students who began the program who were scheduled to complete the program within 100% of the published program length within 2020 and excludes all students who canceled during the cancellation period, minus the number of students who have died, been incarcerated, or been called to active military duty.	12%	22%	21%
Placement Rates: The number of students who completed the program within 100% or 150% of the published program length who were scheduled to graduate in 2020 and are gainfully employed in the field divided by the number of graduates available for employment. Graduates employed in the field means graduates who beginning within six months after a student completes the applicable educational program are gainfully employed, whose employment has been reported, and for whom the institution has documented verification of 35 days employment. For occupations for which the state requires passing an examination, the six month period begins after the announcement of the examination results for the first examination available after a student completes an applicable educational program.	71%	71%	84%
Program Costs			
Includes tuition and fees for the entire program, and assumes normal completion. Tuition and fees are subject to change.	\$20,562.50	\$20,562.50	\$20,562.50
